

Taxi and rideshare drivers – stay COVID safe

Get vaccinated against COVID-19 as soon as it's your turn

Stay home if sick and get tested

Ask passengers if they are in quarantine or going for testing **BEFORE** they get in, so you can take extra precautions (see below)

If you drive people who are in quarantine, you can get free testing every 7 days as part of the DETECT Borders program

Physical distance whenever you can and wash or sanitise hands often

Provide hand sanitiser to passengers

Clean vehicle regularly

Encourage contactless payment

If you are driving a passenger who is in quarantine or going for COVID-19 testing, make sure you keep safe:

Both you and your passenger **MUST** wear a surgical mask. Throw it away after the trip

Passengers should use hand sanitiser before getting in

Do not handle your passenger's luggage

Passengers should sit in the back

Open windows and set air conditioning to fresh

You must clean your vehicle after the trip
