

# Western Australian Coding Rule

## 0711/02 Papillary fibroelastoma

### Q.

Please confirm past coding advice for papillary fibroelastoma is still correct?

### A.

Past advice (WA decision W1592) is still correct. Fibroelastoma is a benign neoplasm of the heart, typically involving one of the valves e.g. aortic valve. ICD-10-AM does not have a specific code for this neoplasm.

The index look-up for benign papillary neoplasm instructs us to code papilloma. Assign:

D15.1 *Benign neoplasm of heart*  
M8050/0 *Papilloma NOS*

### DECISION

**Papillary fibroelastoma should be coded:**

**D15.1 *Benign neoplasm of heart***  
**M8050/0 *Papilloma NOS***

[Effective 20 Jul 2011, ICD-10-AM/ACHI/ACS 7<sup>th</sup> Ed.]
