## **Executive Summary**

### **Introduction**

This report pertains to data provided to the W.A. Aged Care Evaluation Unit, on records of Home and Community Care clients and their carers, who received or were receiving one or more HACC services between the 1st July 2009 and the 30th June 2010. This version of the report includes updated data sets for all 4 quarters of the financial year 2009/10.

### **HACC Program**

The HACC Program is a key provider of community care services to frail aged people and younger people with disabilities and their carers. The overall objective of the HACC Program is to enhance the independence of people in these groups and to avoid or delay their premature admission to long term residential care through the provision of basic maintenance and support services.

### **HACC MINIMUM DATA SET (V2)**

The data elements included in the HACC Minimum Data Set (MDS) and defined in the HACC National MDS User Guide Data Dictionary 2.0 are considered to be the minimum information requirements for management within the HACC program.

They relate to:

- The characteristics of care recipients (e.g. sex, age, indigenous status, functional status items)
- The circumstances of care recipients (e.g. where they live, whether they have a carer)
- The characteristics of carers (e.g. age, sex, indigenous status)
- Information about the service episode (e.g. source of referral, date of entry, date of last update)
- The assistance received by care recipients and carers from the HACC program (e.g. amounts and types of assistance received).

## HACC Minimum Data Set (v2.0)

### CARE RECIPIENT VARIABLES

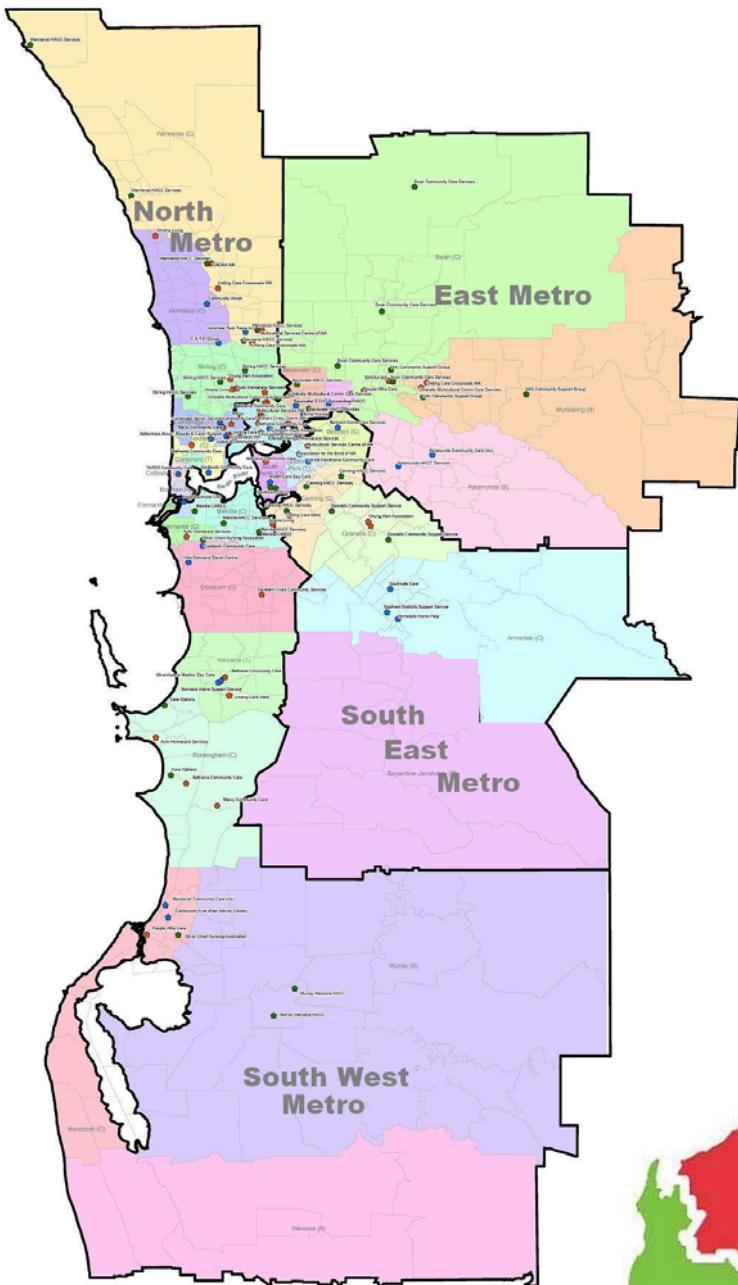

- Statistical Linkage Key (SLK)
- Client name – Letters
- Year of Birth
- Date of Birth (DOB)
- Sex
- Agency state
- Agency ID
- Agency Region
- Country of Birth
- Main Language spoken
- Indigenous status
- Area of residence
- Locality
- Missing SLK
- Postcode
- Client Region
- Living arrangements
- Pension status
- DVA
- Accommodation Setting
- Date last assessed
- Referral source
- Reason for Cessation
- Date of HACC entry
- Date of HACC exit
- Client Functional Screening:
  - Housework
  - Transport
  - Shopping
  - Medical
  - Money
  - Walking
  - Bathing
  - Memory
  - Behaviour
  - Communication
  - Dressing
  - Eating
  - Toileting
  - Mobility

- Assistance Type:
  - Allied Health
  - Assessment
  - Case Management
  - Centre-Based Day Care
  - Client Care Coordination
  - Counselling/Support, Information and Advocacy (care recipient)
  - Counselling/Support, Information and Advocacy (carer)
  - Domestic Assistance
  - Formal Linen Services
  - Home Maintenance
  - Home Modification
  - Meals
  - Nursing Care
  - Other Food Services
  - Personal Care
  - Provision of Goods and Equipment
  - Respite Care
  - Social Support
  - Transport
- Minutes to collect information
- Quarter

### CARER VARIABLES

- Carer Exists
- Carer's Date of Birth
- Carer's Sex
- Carer's Country of Birth
- Carer's Main language spoken
- Carer's Indigenous status
- Carer's Area of residence
- Carer's Locality
- Carer's Postcode
- Carer's Resident status
- Carer's relationship to client
- Carer for multiple clients
- Carer's SLK
- Carer's name - Letters

## Classification of Regions

HACC Planning Regions and Subregions are classified according to the Statistical Local Areas (SLAs), based on the Australian Standard Geographical Classification by the Australian Bureau of Statistics. The client data is organised into SLAs and Subregions according to client residential postcode as recorded in the HACC MDS. The region classified as 'Others' includes postcodes which are missing, do not fall within any of the HACC planning regions, or relate to P.O. box addresses.

Maps supplied by the WA DoH and the WACHS

## Data preparation

The HACC MDS is reported to the National Data Repository on a quarterly basis. All clients receiving HACC services or stopped receiving services in the quarter will have at least one MDS record. Each client may have several MDS records in the period as they may be receiving services from several agencies.

There were 233,718 HACC MDS records in the 2009/10 HACC revised annual data set.

Of those, 405 records did not have any assistance recorded and were excluded leaving 233,313 records. Another check was carried out for records with matching variables *Letters of Name* and *DOB* but differing values for *Sex*. The matched records were selected and those found to contain a missing value for variable *Sex* (code 9), were further matched for variable *Locality*, to ensure that they were the same client. Forty-two such cases were beyond doubt the same client and the *Sex* variable as well as the *SLK* were corrected.

A total of 233,311 records were aggregated to client level on the basis of the variable *SLK* resulting in 67,041 records used for the annual report.

It was observed before aggregation that many records of clients with multiple MDS entries had differing values for the same variable when two or more agencies were involved. It was decided, for the [purpose of comparisons with the 2008-2009 HACC Annual Report](#), to apply the [same aggregation rules as in the 2008-2009 analysis](#) to determine the value of each variable used in the analysis:

- 1) The data were first *sorted by ascending SLK and Agency ID*.
- 2) Variables which by definition should have the same value if multiple records are present (i.e. *Country of Birth*, *Main Language spoken*, *Indigenous status*, *DVA*, *Pension status*)

*The most frequent value was used; if the most frequent value was “missing” or “not stated” the 2<sup>nd</sup> most frequent value (if any) was used; if the most frequent value was “missing” or “not stated” as well as another value then the other value was used.*

- 3) Variables which could have different values in multiple records (e.g. *Postcode*, *Living arrangements*, *Accommodation setting* could be different if a client moved; Carer details could be different if a carer stopped caring for a person during the year or if another carer took over; *Referral source*, *Reason for cessation* could be different in separate records)

*The most frequent value was used; if the most frequent value was “missing” or “not stated” the 2<sup>nd</sup> most frequent value (if any) was used; if the most frequent value was “missing” or “not stated” as well as another value then the other value was used.*

- 4) Carer exists

*If this variable had a value of ‘Yes’ in one MDS record of a client with multiple records in the year, then it was assumed that that client had a carer regardless of other records indicating the opposite.*

- 5) Functional status variables

*The most frequent value was used; if the most frequent value was “missing” or “not stated” the 2<sup>nd</sup> most frequent value (if any) was used; if the most frequent value was “missing” or “not stated” as well as another value then the other value was used.*

- 6) Types of assistance variables

*The values of each variable for various types of assistance were summed up to generate a variable composed of the total amount of each type of service received.*

Clients were allocated to HACC Planning regions and subregions on the basis of their residential postcode which along with suburb/town is reported in the MDS (in the variable *Locality*). A total of 69 client records were found to have recorded missing or invalid postcodes but had a valid *Locality* name and thus were changed to reflect the correct postcodes.

In determining ***Carers*** and ***Carers receiving HACC services*** the following variables were used:

<b><i>Carer:</i></b>	<i>Carer Exists</i> = Yes
<b><i>Carer receiving HACC service:</i></b>	a value > 0 in variable <i>CSIA_C</i> (Counselling-Carer) and/or a value > 0 in variable <i>RC</i> (Respite Care)

<sup>1</sup> Includes all records.

<sup>2</sup> Includes records with variable Carer Exists = Yes

<sup>3</sup> Includes records with a value > 0 in variable CSIA\_C (Counselling-Carer) and/or variable RC (Respite Care).

<sup>4</sup> Divides number of carers receiving HACC services (3) by number of carers recorded (2).

<sup>5</sup> Includes records with P.O. Box address or where postcode is missing, 'not stated' or falls outside a HACC region.

### Comment:

Clients of the Home and Community Care Program consist of care recipients who are either elderly people or younger people with disabilities.

The HACC MDS records services provided to both care recipients and their carers. However not every care recipient has a carer and only a proportion of carers receive carer specific HACC services.

The number of care recipients increased by **0.7%** in 2009/10 (**67,041** vs. 66,572 in 2008/9). In comparison there was a decrease this year in the number of HACC clients recording having a carer (**19,667** vs. 22,101 last year). However, the proportion and numbers of carers receiving carer's services themselves (Respite Care and/or Counselling, Support, Information & Advocacy) increased to **23.8 %** from 20.5% in 2008/09 (**4,688** vs. 4,527 cases).

The next section documents the characteristics of all HACC clients (care recipients and carers) and includes items such as age, gender and ethnicity.

## Client age and gender profiles

<sup>1</sup> Includes care recipients with missing DOB, DOB=1/1/1900 (default for Null) or DOB in the future (i.e. >30/6/2010).

#### Comment:

In 2009/10, **71.2%** of HACC clients were 70 years of age or older (**63.3%** in the 70-89 group and **7.9%** in the 90+), compared to the 2008/09 HACC report where 69.5% of HACC clients were 70 years of age or older (63.5% in the 70-89 group and 6.0% in the 90+). Approximately **10%** of HACC clients were younger than 50 years; this proportion remains the same as last year.

**Figure 1: Proportions of Care Recipients by Age Group & Region**

**Comment:**

Similarly to the 2008/09 HACC report, the Pilbara and the Kimberley regions have higher proportions of younger clients (ages 0 – 49).

Pilbara had a large proportion of clients (**16.5%**) with “Not stated” DOB.

<sup>1</sup> Includes carers with missing *DOB*, *DOB*=1/1/1900 (default for Null) or *DOB* in the future (i.e. >30/6/2010).

**Comment:**

The majority of carers were from the 26 – 69 age group (53.1%), showing a 3.8% decrease from last year, while carers aged between 70 and 89 years recorded a 1.9% increase (41.0% up from 39.1% in 2008/09).

**Figure 2: Proportions of Carers by Age Group & Region**

**Comment:**

Similar to the 2008/09 HACC report, the Pilbara, Kimberley and the Goldfields remained the regions with the highest proportions of “younger” carers (ages 0 – 69).

Pilbara had a large proportion of carers with “Not stated” DOB.

**Comment:**

There were almost twice as many female care recipients as male care recipients (66.2% versus 33.8%). These proportions were similar to data collected in 2008/09 (66.4% versus 33.5%, respectively).

nec= not elsewhere specified

#### Comment:

More than half (**58.4%**) of all HACC clients were born in Australia, showing a slight decrease of **0.2%** compared to the 2008/09 data. The highest proportion of non-Australian born clients were from Europe (**28.8%**), followed by Asia (**5.2%**). Like last year, there were a considerable number of records with missing COB recorded (**4.1%**).

#### Comment:

Most HACC clients reported English as the main language spoken at home (**87.5%**), decreasing by **0.1 %** compared to last year.

European languages (**6.0%**) included Southern European Languages (mainly Italian, Greek and French), Eastern European Languages (mainly Polish, Macedonian and Croatian) as well as Northern European languages (mainly German and Dutch).

Like last years report, Kimberley, Pilbara and Goldfields recorded the highest number of HACC clients whose main spoken language was Australian Indigenous Languages.

The number of missing values was significant, but slightly lower than last year's (**2,478** vs. **2,490**).

**Comment:**

There were **3.5%** of HACC clients who were of Aboriginal/Torres Strait Islander background, a **0.1%** decrease from last year's report. The majority of these (**75.5%**) were older than 50 years. Again this year, a considerable number of cases recorded indigenous status as 'not stated', increasing to **4.9%** from last year's 4.2%.

**Figure 3: Number of indigenous clients by Subregion**

\* Postcode was missing

**Comment:**

Similarly to last year's data, the highest number of ATSI clients amongst the rural and remote regions came from Kimberley, Goldfields and Pilbara

Within the metro regions, the majority of ATSI clients were from South East Metro and East Metro, which was consistent with last year's data.

**Table 9: Carer Availability**

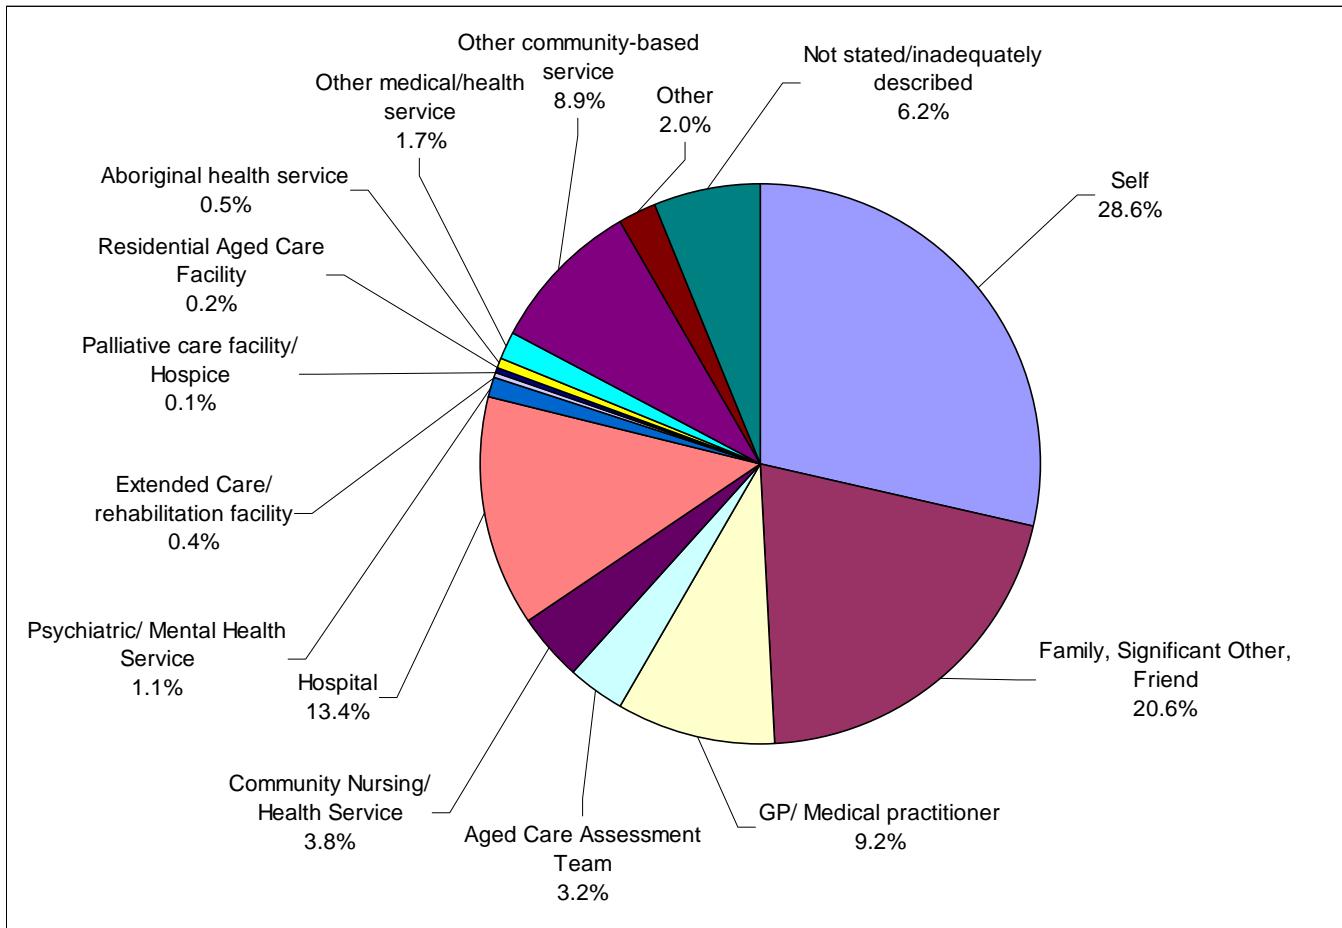

**Figure 4: Client Pension status**

**Comment:**

**61.2%** of total HACC clients are aged pensioners (61.1% last year). Those on disability pensions comprised **15.0%** with a further **7.5%** on a veteran's pension. A considerable percentage of care recipients didn't receive any Government pension or benefits (**7.7%**). Again the proportion of pension 'Not stated' was high (**5.1%**).

**Figure 5: Client Referral Source**

**Comment:**

HACC clients were referred to service providers from a range of sources: these include self-referral (**28.6%**), family, significant other or friends (**20.6%**), hospitals (**13.4%**), general or medical practitioner (**9.2%**), community-based services (**8.9%**) as well as others shown in Figure 5 above.  
*(Note: Aggregation of MDS records may have produced inaccurate results - see page 10)*

PC – Personal Care

RC – Respite Care

SS – Social Support

T – Transport

**Figure 6: Number of clients receiving various types of Assistance**

**Comment:**

Amongst the assistance types provided by HACC, Assessment, Domestic assistance, Client care coordination & case management registered the highest number with **44,022**, **27,182** and **20,112** clients respectively. Compared to last year's data, this is a decrease of **2.0%** and **9.3%** for Assessment and Client Care Coordination & Case Management, respectively. Domestic Assistance increased by **2.7%** compared to 2008/09.

Following these are Transport assistance (**19,901**), Home maintenance (**15,564**), Centre-based day care (**12,086**) and Meal services (**10,768**).

For Counselling, support, information and advocacy assistance, total client numbers amounted to **15,644** clients, **81.3%** of which were care recipients, and the remaining **18.7%** carers. In actual numbers, there was an increase of **233** care recipients and **550** carers who were receiving Counselling, support, information and advocacy assistance this year.

Other assistance types include Nursing care (**7,804** clients), Personal care (**6,482** clients), provision of Goods and equipment (**3,943** clients), Allied health care (**3,196** clients) and Respite care (**2,401** clients).

The assistance types recording the lowest number of clients registered were the same as 2008/09 - Formal linen service, Home modification and Other food services, recording only **53**, **226** and **254** clients respectively.

HMA – Home Maintenance, HMO – Home Modification, M – Meals, NC – Nursing Care, OFS – Other Food Services, PC – Personal Care, RC – Respite Care, SS – Social Support, T – Transport. <sup>2</sup> It is suspected that one agency reported collectively in one MDS record

Indicates regions with the highest average volume for each assistance type.

<sup>1</sup> Average calculated for clients receiving the service not all clients.

**Figure 7: Average volume of types of Assistance received<sup>1</sup>**

N.B.: Volumes for 'Allied health care', 'Assessment', 'Centre-based day care', 'Client care coordination & Case management', 'Counselling – Care Recipient & Carers', 'Domestic assistance', 'Home maintenance', 'Other food services', 'Personal Care', 'Respite Care' and 'Social Support' are recorded in **hours**.

Volumes for 'Meals', 'Formal linen service', 'Transport' and 'Provision of goods and equipment' are recorded as **quantity**.

Volume for 'Home modification' recorded by **cost in dollars**.

<sup>1</sup> Average calculated for clients receiving the service not all clients

### Comment:

The highest volume by hours of service provided to clients was for Centre-based day care, an average of **152.7** hours in the year (vs. 156.0 last year). The next highest average per client was **80.7** hours for Respite care (82.2 in 2008/09), followed by **51.3** hours for Personal care (vs. 55.6 hrs), **42.5** hours for Social support (vs. 43.6 hrs) and **30.4** hours for Domestic assistance (vs. 30.7 hrs). This year's 'highest volume by hours of service' order of ranking is similar to last year's HACC report, although the actual average volume by hours decreased slightly across most service types.

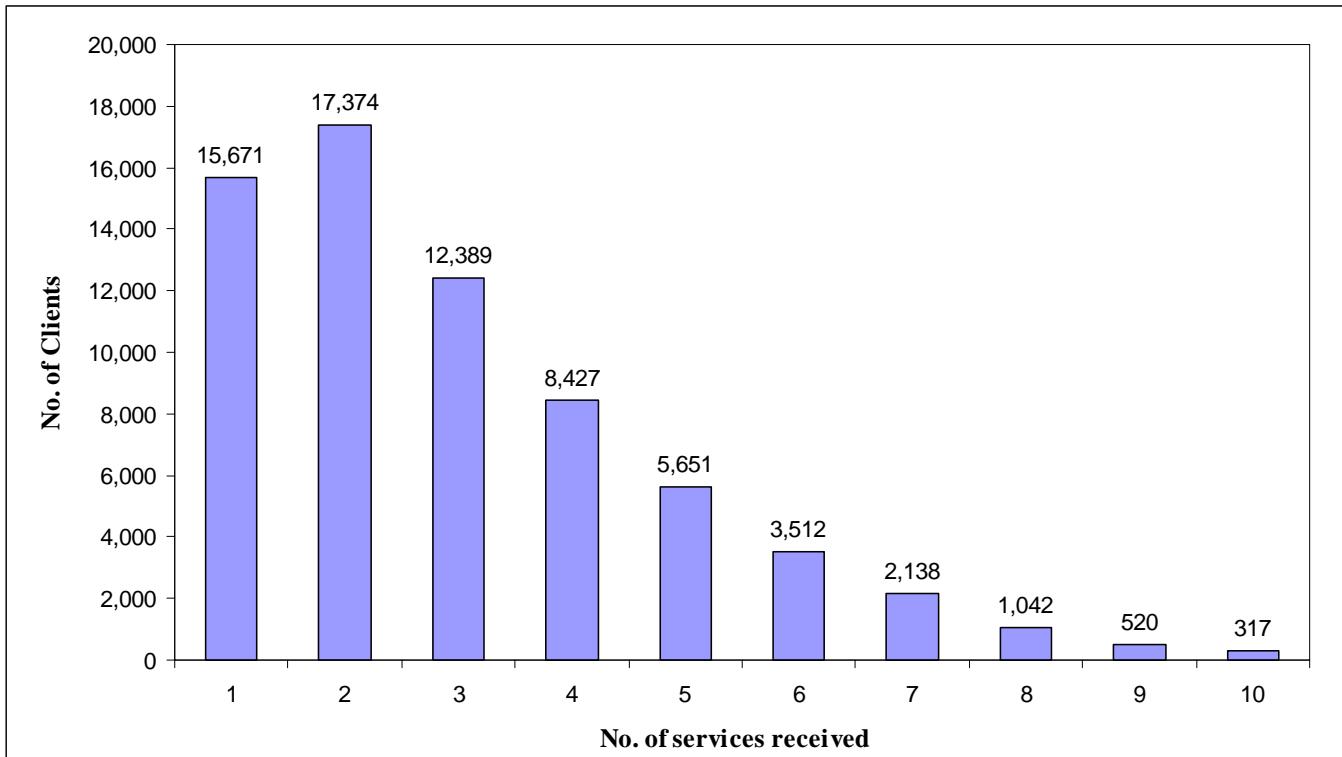

The highest volume by quantity of services provided were, **92.3** Meals (vs. 89.2 in 2008/09), Transport **48.2** trips (vs. 49.4) and Formal linen services **10.6** units (vs. 28.7). The ranking was again consistent with the 2008/09 HACC report but the actual average amounts were higher for Meal services but lower for Transport services and Formal linen services.

For Home modification, which is based on actual costs (in dollars), the average amount for HACC clients who received this assistance type was **\$1132.20**. This was a significant increase of **58.5%** compared to the last year's report (\$714.5).

**Table 15: Number of different Assistance types received by clients (% by Region)**

**Figure 8: Number of different Assistance types received by clients**

**Comment:**

Most clients received **two types of HACC services**, accounting for **26.0%** of the total HACC population, decreasing by **0.1%** from last year's data.

This is followed by clients receiving 1, 3 and 4 assistance types, with **23.4%**, **18.5%** and **12.6%** respectively. Compared to the 2008/09 HACC report this is an increase of **2.0%**, a decrease of **0.7%** and a decrease of **0.3%**, respectively.

Across WA, the total number of clients receiving 7 or more assistance types accounted for **6.0%** of all HACC clients, decreasing by **0.5%** from last year.

**Table 16: Assistance type received by age groups**

Assistance Type	Not Stated		0-20		21-49		50-69		70-89		90+

Indicates age group with highest proportion of clients by each assistance type.

Indicates assistance type with highest proportion of clients within each age group.

#### Comment:

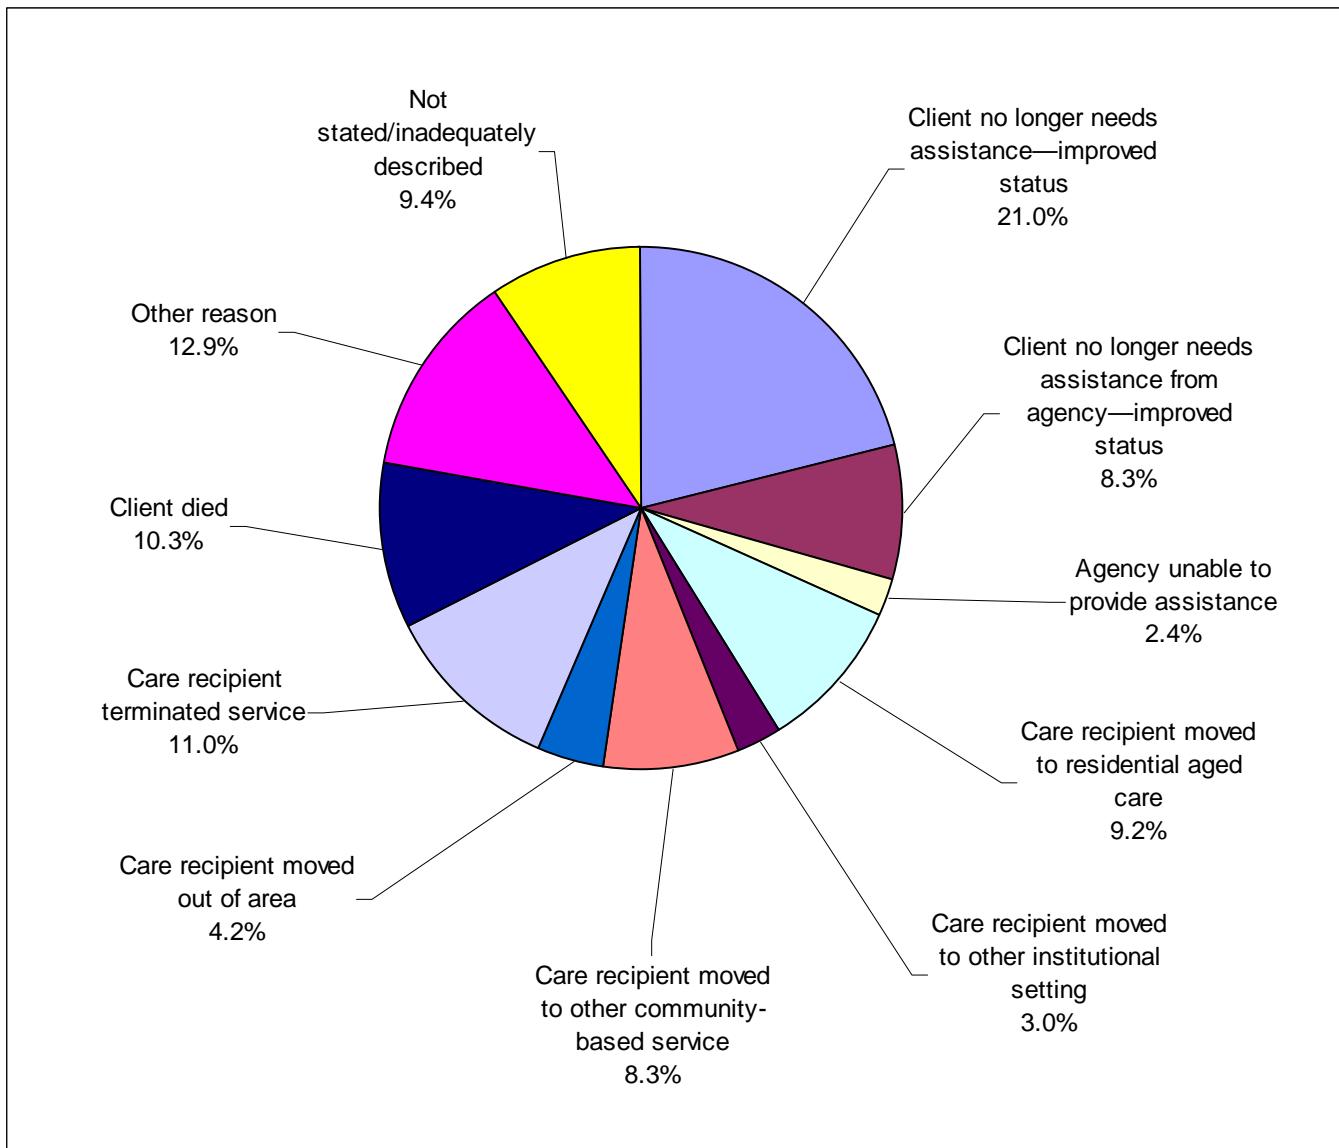

The highest proportion of HACC clients in every assistance type falls in the 70 to 89 year age group.

Within each age group the Assistance types with the highest proportion of clients included Assessments (for all groups, except Not Stated), Domestic assistance, Client care coordination & Case management, Meals, Respite care and Transport. These figures were similar to 2008/09 where Assessments, Domestic assistance, Client care coordination & Case management with the highest proportion of clients across all age groups.

**Figure 9: Reason for Cessation of HACC assistance**

**Comment:**

In 2009/10, a total of **14972** clients ceased receiving services from HACC due to various reasons; this was **2.5 times** compared to last year's report (or an additional 8990 clients). The majority (**21.0%**) reported as a reason for cessation improved status where assistance was no longer required. This figure is slightly lower to last year's report (23.1%). A further **8.3%** recorded not requiring assistance from that agency due to improved status (9.9% in 2008/09).

Other reasons included: reasons not specified (**12.9%**), client terminated service (**11.0%**), client died (**10.3%**), client moved to residential aged care (**9.2%**), client moved to other community based service (**8.3%**), client moved out of area (**4.2%**), client moved to other institutional setting (**3.0%**), and **2.4%** recorded that the agency was unable to provide assistance.

The remaining **9.4%** of clients did not record a reason for cessation of HACC services.

*(Note: Aggregation of MDS records may have produced inaccurate results - see page 10)*

## Missing Data

**Table 18: Proportion of data missing or invalid – Summary of important variables**

Region	Postcode (%)	Country of Birth (%)	Sex (%)	Main language (%)	Indigenous status (%)	Carer's Date of Birth (%)	Carer's Sex (%)

<b>WA TOTAL</b>	<b>0.0</b>	<b>4.1</b>	<b>0.04</b>	<b>3.7</b>	<b>4.9</b>	<b>1.3</b>	<b>1.4</b>

**Comment:**

This year, missing data for the variable *Sex* was significantly lower than the 2008/09 report (**0.04%** vs. 0.11%).

Missing data for the variable *Postcode* has decreased from 0.2% in last year's report, to below **0.1%** this year.

Missing data for variables *Indigenous status* increased by **0.7%** this year while *Carer's DOB* and *Carer's Sex* decreased by **0.4%** and **0.8%** respectively.

The proportion of missing data for variable *Main language* was the same as in 2008/09.

## Appendix B

**Table B1: SLAs by HACC Metro Regions and Subregions**

HACC Planning Region	HACC Subregion	SLA
East Metro	Central Metropolitan	Perth (C) - Inner
		Perth (C) - Remainder
		Stirling (C) - South-Eastern
		Vincent (T)
	Inner Metro East	Bassendean (T)
		Bayswater (C)
	Outer Metro East	Kalamunda (S)
		Mundaring (S)
		Swan (C)
North Metro	Inner Metro North	Cambridge (T)
		Stirling (C) - Central
		Stirling (C) - Coastal
	Inner Metro North West	Claremont (T)
		Cottesloe (T)
		Mosman Park (T)
		Nedlands (C)
		Peppermint Grove (S)
		Subiaco (C)
	Outer Metro North	Joondalup (C) - North
		Joondalup (C) - South
		Wanneroo (C) - North-East
		Wanneroo (C) - North-West
		Wanneroo (C) - South
South East Metro	Inner Metro South East	Belmont (C)
		Canning (C)
		South Perth (C)
		Victoria Park (T)
	Outer Metro South East	Armadale (C)
		Gosnells (C)
	Serpentine-Jarrahdale	Serpentine-Jarrahdale (S)
South West Metro	Dale	Mandurah (C)
		Murray (S)
		Waroona (S)
	Inner Metro South West	Cockburn (C)
		East Fremantle (T)
		Fremantle (C) - Inner
		Fremantle (C) - Remainder
		Melville (C)
	Outer Metro South West	Kwinana (T)
		Rockingham (C)

**Table B2: SLAs by HACC Rural/ Remote Regions and Subregions**

HACC Planning Region	HACC Subregion	SLA
Great Southern	King	Albany (C) - Bal
		Albany (C) - Central
		Cranbrook (S)
		Denmark (S)
		Plantagenet (S)
	Pallinup	Broomehill (S)
		Gnowangerup (S)
		Jerramungup (S)
		Katanning (S)
		Kent (S)
Goldfields	Johnston	Kojonup (S)
		Tambellup (S)
		Woodanilling (S)
	Lefroy	Dundas (S)
		Esperance (S)
		Ravensthorpe (S)
		Coolgardie (S)
		Kalgoorlie/Boulder (C) - Pt A
		Kalgoorlie/Boulder (C) - Pt B
		Laverton (S)
